VIRTUE_{RF}

Freeze Pain • No Social Downtime • Only with Virtue RF

*The Most Sophisticated and Versatile
RF Microneedling Experience*

5 Reasons

VIRTUE_{RF} microneedling

may be right for you

- ✓ You want to reduce signs of aging on your face
- ✓ You have multiple skin issues
- ✓ You want treatment on more than just your face
- ✓ Loose skin caused by extreme weight loss
- ✓ You need a quick recovery after treatment

What is RF Microneedling?

- Incredibly small **gold coated sterile needles** prick into the skin and create tiny wounds.
- Kicks your skin into healing mode to create new, fresh-looking skin.
- Also boosts the production of collagen and elastin, making the skin tighter, brighter, and more youthful-looking.
- With RF microneedling, radio frequency energy amplifies the process with heat, for better results compared to traditional microneedling.

How it works?

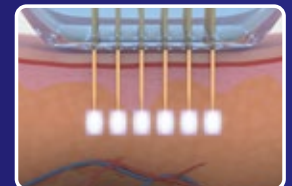

Micro-needle
makes perfect contact
with skin

Micro-needles smoothly
penetrate the skin

Bipolar RF energy
denaturalizes the
surrounding tissue

Collagen regeneration
process begins

How is Virtue RF different?

- 36 micro needles **coated with gold**.
- Extremely precise microscopic punctures.
- **Unmatched recovery speed**.
- **Pain-free** process.
